

Digital Media, Animation Option Program Learning Outcomes:

Upon successful completion of this program, graduates will be able to:

- Demonstrate technical skills in traditional and digital media, applying principles of design to their work.
- Demonstrate broad knowledge of software applications related to digital media.
- Develop web pages, print layouts, and animations that display both technical knowledge and design principles.
- Communicate effectively with clients, advertisers, art directors, designers and producers.
- Work effectively as a part of a team, acting responsibly and respectfully to complete various design projects.
- Research design trends to choose appropriate motion, imagery, and colors for an array of design projects.
- Analyze multicultural influences on design trends.
- Apply appropriate design ratio and scale between imagery, motion and message
- Produce a demo reel that is technically correct and demonstrates animation design principles.
