| 170 | no danger for anyone | Apr 10, 2013 8:19 AM |
| 171 | no worry about personal safety from the environment or other people | Apr 10, 2013 8:18 AM |
| 172 | A safe campus is where everyone feels (or believes) they are safe because they know the procedures and believe safety is a priority of the campus. | Apr 10, 2013 8:18 AM |
| 173 | Where all people feel safe at all times and know what to do in various situations. Where everyone is equipped with the knowledge and materials they need to feel safe. | Apr 10, 2013 8:17 AM |

| 1 | I'm sure that with any situation I would be able to follow procedure that hopefully the Instructors know to follow. I do not know specific evacuation routes, but could figure it out. | May 5, 2013 10:26 AM |
| 2 | I feel that this campus is a safe campus. I feel that there should be an officer available for anyone who wants them to walk them to their car after dark or at night. | May 2, 2013 4:53 PM |
| 3 | Locking the end corridor doors on Saturdays is a very slight attempt at strengthening security, but elementary schools have better security procedures regarding non-student entry. The enforcement of smoking rules needs to be addressed. I don't know how many times I've seen students flicking their cigarette butts on the lawn by the side entrances the school and have just blown smoke in my face when they saw me looking. It is disgusting and no one cleans it up. It is honestly enough of a pet peeve that I think there should be ZERO smoking allowed since the smokers don't use the smoking hut anyway. They should be fined, punished, something for littering and causing potential fire hazards. | May 2, 2013 1:47 PM |
| 4 | This is one of the few places I truly feel safe and without worry for harm coming to myself or others around me. | May 2, 2013 1:02 PM |
| 5 | The library seems to be a vulnerable area where tension can be raised. Many times groups of students will work together and do not respect that the library is a quiet study area. I have seen some become quite irritated when asked by other students to respect the "quiet area". It can also be quite frustrating when trying to work in the quiet area and students do not comply with the request to "quiet" themselves. YCCC needs to have an area where students can study quietly and not feel threatened asking for compliance. | May 2, 2013 10:40 AM |
| 6 | does the collage have a safety council? | May 2, 2013 10:13 AM |
| 7 | I recently experienced an emergency outside of school, but because of the information that my psychology professor has given me I was able to take complete charge of the situation and direct others so that the level of danger was quickly reduced and the injured party was taken care of as quickly as possible. There was a review on safety and procedures at student orientation. At that time I felt that all potential issues had been addressed and that the procedures were appropriate and thorough. I have since forgotten some of what was discussed. I feel that there needs to be a review of safety procedures on a regular basis to ensure that students and staff don't forget procedures and that they will be able to act on instinct if an event occurs. Safety reviews don't necessarily have to involve classes or lectures, they could consist of requiring students to read an attachment in an email and complete a quiz, similar to this survey. | May 2, 2013 5:12 AM |
| 8 | Slow the hell down in the parking lot! | May 1, 2013 12:51 PM |
| 9 | I feel safe at YCCC | May 1, 2013 8:30 AM |
| 10 | Additional security might be needed in the evening hours and the behavior of the students, faculty and staff that hang out in the smoke hut should be monitored. It's too close to cars that they can figure out who's car is who's and target. | May 1, 2013 8:23 AM |

| 11 | #5 I'm aware of a limited number of emergency procedures, I would like to see all information, along with incident report forms, in a centralized, easily accessed location. #8 I know we have an Emergency Response Team, but I would have to take the time to look up phone extensions. Contact information (not necessarily names) should also be readily available. | Apr 26, 2013 12:26 PM |
| 12 | I recently dealt w/a stocking situation and was informed that if someone had called and attempted to locate me on campus I would never be notified. I feel like that is something that should be looked into and there should be more security and/or a way to monitor who comes on campus. the open door policy scares me at times especially dealing with a stocking issue as there are 0 lines of defence | Apr 24, 2013 6:45 PM |
| 13 | I think the fact that the side doors are open all day and anyone can come in and out is problematic. Also, faculty/staff parking needs to be enforced. I park there for a reason and now students are clearly parking there. That is not acceptable to me. | Apr 17, 2013 6:34 AM |
| 14 | I am graduating this year from this college and I have to say I found the faculty and my fellow students to be pleasant and accepting of each other. YCCC has a great atmosphere for communicating and learning from what I have experienced. Thank you! | Apr 16, 2013 4:05 PM |
| 15 | I appreciate the survey. I hope that this has continued progress and is a collective effort. | Apr 16, 2013 1:07 PM |
| 16 | I have never felt uneasy at any time while on campus. I am aware of evacuation routes which are posted throughout campus. However, I do not recall seeing other safety information around campus. I am sure I received verbal and perhaps written information pertaining to it during orientation but that was several years ago. | Apr 14, 2013 5:53 AM |
| 17 | While this is a small campus in a wonderful community, that does not stop people from having issues. The reality is that Community Colleges have a high risk clientele. For those of us who have been here for a while, we had a student here who was dealing with domestic violence and she was murdered. We have many students here dealing with domestic violence. I worry about the perpetrator coming to the school and doing something violent. The current emergency procedure does not address today's world. It needs to be rewritten. Emergency Team should not just include management. Many times they are off campus and would not be here to deal with an emergency. A workshop should be set up for all employees and maybe the Wells Police Department would agree to address our current safety procedures and lock downs so that all employees will understand and feel more in control. Someone in management or MCCC needs to take action and address this as soon as possible. | Apr 12, 2013 8:03 AM |

| 19 | There is no medical facility for a student or staff member to go to when ill, or anxious. | Apr 12, 2013 6:32 AM |
| 20 | Once an alarm went off and I was scared to death. It was during orientation and it wasn't a fire alarm. If any kind of alarm has to be activated, please let students | Apr 12, 2013 3:35 AM |

| 21 | I'm still under a physicians care for the trauma I received from this college. | Apr 11, 2013 1:21 PM |
| 22 | There is only security on the campus during the evening. It might be useful to have full time security on guard at all times. | Apr 11, 2013 1:13 PM |
| 23 | There should be information/training targeted to adjuncts, especially those of us teaching evening classes. We are usually there when there are few full-time regular employees around. | Apr 11, 2013 12:15 PM |
| 24 | Most of the questions asked in this survey are common sense. Maybe sending out occasional updates or reminders would be a good idea as what to do in these circumstances. Better yet run a mock incident so that staff, teachers and students are involved and will then know what to do. | Apr 11, 2013 8:34 AM |
| 25 | Overall, I believe that the YCCC campus is generally more safe than several other campus' I have seen. As the college expands, however, that safety will deteriorate and more security will be required (additional officers, wider use of surveillance cameras that are constantly monitored, etc). I believe that the campus population is almost to the point where a second security officer is needed. | Apr 11, 2013 4:38 AM |
| 26 | Yccc is a great place to earn an education | Apr 11, 2013 3:44 AM |
| 27 | I think it is a wonderful school and great environment. I have never felt intimidated by the school or anyone. I feel everyone is so welcoming besides the cafe people. Haha, I love the students and staff. I think the environment should always stay positive and students could use more guidance to help achieve. | Apr 10, 2013 11:33 PM |
| 28 | Lighting in the parking lot could be better. Think Walmart, | Apr 10, 2013 7:19 PM |
| 29 | I just recently learned that security will provide an escort at night. I don't think students are made aware of this service enough. | Apr 10, 2013 2:37 PM |
| 30 | Training in responding to emergencies is a campus-wide issue and training at all levels is essential. Time MUST be made available for this in the future. | Apr 10, 2013 12:48 PM |
| 31 | Review/revision and inclusion of our community members in articulating our policies/procedures/support mechanisms is clearly a need here. | Apr 10, 2013 12:24 PM |
| 32 | It may be that I have some of this information but have not yet properly read it.. I'm new. | Apr 10, 2013 11:29 AM |
| 33 | I've taught in many other institutions and am impressed by, proud of, and grateful for the high professional and respectful atmosphere found at YCCC. | Apr 10, 2013 11:21 AM |
| 34 | Question 8: I know there is an emergency response team on campus, but I don't know who all the members are or how to contact them aside from the phone. | Apr 10, 2013 10:56 AM |
| 35 | The scariest priople are some of the instructors! | Apr 10, 2013 10:51 AM |
| 36 | I like that faculty have keys to their classroom so that if there were a situation where we had to hide in the classroom we could lock the door. | Apr 10, 2013 10:12 AM |

| 37 | I think Yccc is a safe campus. I know it is difficult to conduct fire drills or lock down drills but maybe either posting a video on what to do in the instances of each emergency event would be good. Maybe if you posted it on the home page would be good. I think the school feels like a safe environment. | Apr 10, 2013 9:50 AM |
| 38 | The campus needs to have effective, efficeint, known, drilled, updated procedures. Living in denial that anything bad will happen or saying we are safe does not make it so. | Apr 10, 2013 9:09 AM |
| 39 | I think practicing procedures would help make them easier to remember | Apr 10, 2013 9:09 AM |
| 40 | In general, we need more regular training on all aspects of safety. Many newer faculty (full and PT) don't know what do if faced with a medical emergency in their classes, or another kind of emergency. Knowlege of lockdown procedures is scattered. I know (sort of) what to in the case of a lockdown, but don't really know anything about general emergency procedures, if we write a report, or how one would reach the emergency team, especially from the classroom. do we send a student out to go look for someone? | Apr 10, 2013 9:08 AM |
| 41 | Need some additional training to deal with individuals that are visibly upset | Apr 10, 2013 9:00 AM |
| 42 | Evacuating the building questions are broad - May know how to evacuate from SOME classrooms but not all. Same for offices. I do worry about angry people and how do diffuse situations. Where do you draw the line between pursuing a resolution yourself and calling for help up to and including 911! | Apr 10, 2013 8:54 AM |
| 43 | we can't assume that the same messages are being told to everyone involved. | Apr 10, 2013 8:47 AM |
| 44 | There is no training, just an email with a link to procedures. | Apr 10, 2013 8:43 AM |
| 45 | I think changes were made and a review at profesional devlopment day would be helpful | Apr 10, 2013 8:42 AM |
| 46 | no formalized mental health services on campus is very concerning to me - not that it increases security but it is a preventative measure to help with general safety. | Apr 10, 2013 8:26 AM |
| 47 | I think what concerns me the most about my safety on the campus is that I have no back exit or way to get out if I really needed to. I think some form of training would be appropriate so that all staff and faculty are able to know the procedures and what to do. Given what happened recently in TX, I don't think we could do it soon enough! | Apr 10, 2013 8:25 AM |
| 48 | Thank you for acting proactively by conducting this survey. | Apr 10, 2013 8:19 AM |
| 49 | We need some training!!! | Apr 10, 2013 8:19 AM |
