## **CRIMINAL JUSTICE**

### **ASSOCIATE IN APPLIED SCIENCE**

#### **Program Description**

The Criminal Justice Associate Degree program focuses on the criminal justice system, its organizational components and processes and its legal and public policy contexts. The program includes instruction in criminal law and policy, police and correctional systems organization, the administration of justice and the judiciary, and public attitudes regarding criminal justice issues.

#### **Program Learning Outcomes**

Upon successful completion of the Associate of Applied Science Degree in Criminal Justice, graduates will be able to:

- Analyze and explain the functions and roles of all major aspects of the United States criminal justice system.
- Differentiate the institutions, laws and theories that make up the legal system.
- Explain the constitutional constraints under which police and prosecutors must operate in a free society, and the reasoning behind these limitations.
- Explain the importance and application of basic ethical behavior in the exercise of public trust and discretionary authority.
- Explain how multiculturalism and diversity present special challenges to, and opportunities for, the American system of criminal justice.
- Analyze, articulate and communicate criminal justice data and legal information using appropriate technology.
- Demonstrate the ability to record, analyze, interpret and communicate data for decision making and compliance with laws and protocols.

#### **Career Opportunities**

The Criminal Justice degree is designed to prepare students for careers in police work, corrections and security in addition to serving as the basis to transfer on to complete a baccalaureate degree. For those already in service the program provides educational progress for promotion and other career development purposes.
