

TIPS & TECHNIQUES FOR HIGH-EFFICIENCY MACHINING

LEARN NEW METAL REMOVAL TECHNIQUES THAT CAN REDUCE MACHINING TIME WHILE MAINTAINING HEALTHY TOOL LIFE!

- Learn how High-Efficiency Machining using Fusion's Adaptive Clearing dramatically reduce metal remove time on Haas CNC Machine Tools
- Learn how to take deeper, safer, more aggressive cuts on your Haas CNC machine tools, while extending your tool life
- See a live demonstration of High-Efficiency Machining on a Haas Mini Mill tooled up with Iscar tooling
- Talk with industry professionals as you view comparison data between conventional machining and High-Efficiency Machining
- Tour York County Community College and meet with their instructors and students to learn more about how you can benefit from their program
