

**ASSOCIATE DEGREE IN NURSING  
PARTNERSHIP WITH SOUTHERN MAINE COMMUNITY COLLEGE**

In partnership with York County Community College (YCCC), Southern Maine Community College (SMCC) offers a nursing program on the campus of YCCC. Residents of York County have access to a quality RN program through this partnership. Students may take the required prerequisites and general education courses for the RN program at SMCC or YCCC. In addition, all nursing courses are offered on the YCCC campus by SMCC faculty. As much as possible, clinical experiences are offered at hospitals and long-term care facilities located in York County. The curriculum blends Nursing courses with general education courses to provide a sound theoretical base of nursing practice. Clinical experiences are concurrent with didactic experiences during the four semesters.

The Nursing Program prepares individuals to become registered nurses at the associate degree level. Upon completion of the program, graduates are eligible to take the NCLEX Registered Nurse (RN) licensure examination.

The Nursing Program is approved by the Maine State Board of Nursing, 161 Capitol Street, 158 State House Station, Augusta, Maine 04333-0158 (207-287-1133) and accredited by the Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, Georgia 30326 (404-975-5000, [www.acenursing.org](http://www.acenursing.org)).

The curriculum blends Nursing courses with general education courses to provide a sound theoretical base for nursing practice. Clinical experiences are concurrent with didactic experiences during the four semesters. If students are unable to meet clinical objectives or obtain a course grade of C (76) or better, they fail that Nursing course. Students may apply for reinstatement/re-admission to the Nursing Program once.
