Articulation Agreement

**York County Community College
Associate of Applied Science in Criminal Justice**

And

**Unity College
Bachelor of Science in Conservation Law Enforcement**

Articulation agreement between Unity College and York County Community College

This articulation agreement, which is effective on the date of the final signature, provides transfer admission opportunities for graduates of York County Community College (YCCC) who are interested in pursuing a bachelor's degree from Unity College (UC) in Conservation Law Enforcement. Each party agrees to undertake and perform all responsibilities as outlined herein.

Graduates of York County Community College holding the Associate of Applied Science degree in Criminal Justice will be admitted with junior standing at Unity College. The admissions process will include: completed Unity College application (part I only), and an official transcript from YCCC indicating the degree received. Students must begin attending Unity College the semester immediately following their graduation from York County Community College.

Admission will be granted into the Bachelor of Science degree in Conservation Law Enforcement. Students should be able to complete this major in four semesters of full time coursework if the prescribed courses on the attached sheet are taken and successfully completed at both institutions. Students wishing to enroll in a different degree or major will be required to meet with the Unity College registrar to discuss the length of the program chosen. It will be the responsibility of the student to make an appointment with the registrar at Unity College when changing majors. A student holding an Associate of Applied Science degree must complete at least 60 credit hours at Unity College.

All credits taken at YCCC will be credited toward the baccalaureate degree at Unity College. Transfer courses which do not have Unity College equivalents will be accepted as elective credits. Non-credit or remedial courses will not be accepted for transfer credit and/or graduation requirements.

CONDITIONS OF AGREEMENT

1. YCCC students need to submit an application and official transcripts from YCCC as well as any other educational institutions previously attended.
2. If a student does not have the foundation or skill to enroll in an upper level course because he/she has not taken the appropriate introductory courses, he/she will be required to take any necessary prerequisite(s).
3. Upon matriculation at Unity College, if a student decides to declare another major, the agreement will become void. An evaluation of transfer credits will take place following Unity College's policies in effect at that time.
4. Both parties agree to the right to use each other's names in print and media advertising to the public for purpose of marketing the programs described herein.
5. The registrar, or such other college official as may be designated by either institution, has the responsibility of notifying the other institution of changes in the programs within 60 days, at which time an amended agreement may be executed.

Each party agrees to undertake and perform all responsibilities as outlined
