
**York County Community College
Adjunct Instructor Positions
Fall 2021 Semester**

York County Community College is currently accepting resumes for adjunct instructors for the following fall course sections on our Wells campus. These are non-benefited positions with teaching assignments on a course-by-course, semester-to-semester basis. Complete course descriptions can be found on the college's website: <http://www.yccc.edu>.

**Veterinary Technology Adjunct Instructors
Fall 2021 courses:**

VET 120 Veterinary Pharmacology – Wednesdays 5:30 to 8:15 pm

This course will examine the fundamentals of pharmacology as it relates to the veterinary technician. This class looks at the effects of different drugs on the animal body and their uses for combating various ailments. Future veterinary technicians and technologists learn about drug recognition, labeling and packaging, calculating and measuring appropriate dosages for each animal, and administering, storing and inventorying pharmaceuticals. Students will also study normal and abnormal responses to therapeutic agents. This course may involve field work. Prerequisites: Grade of C or better in Math 118, BIO 124/125 and VET 101. This course is only available to students in the Veterinary Technology program.

VET 215 Laboratory Animal Medicine –Mondays 3:00 – 5:45pm

This course focuses on laboratory and exotic animal husbandry, handling, restraint, and specific problems encountered with laboratory and exotic animals. The student will learn proper feeding and common management practices, including sanitation and disease prevention, in a clinical or zoological setting. The student will also review common diseases of laboratory and exotic animals. This course is designed to provide knowledge and skills required for veterinary technicians. Students will get an introductory view of animal handling and husbandry concepts, veterinary clinic management topics and an introduction to veterinary clinical laboratory procedures, animal nutrition and breeding. Students will be expected to complete a four hour job shadow experience at a veterinary clinic of their choice and will require field work. Prerequisites: Grade of C or better in Math 118, VET 101, VET 110, BIO 134/135 and VET 125/126. This course is only available to students in the Veterinary Technology program.
